

Francisco Coronado

By Liam C.

Francisco Vázquez de Coronado

*I was born in 1510. I grew up in
Spain. I am.....
Francisco Cornado.*

I searched the grand canyon and it was huge. Trust me, it was bigger than you ever imagined . I encountered it face to face. I actually went down into the Grand Canyon too.

I started my first expedition in Mexico to find the cities of gold (also known as Zivira). I searched and searched but I never found it. So I went back later and searched some more. In the end, we never found it. What a disappointment!!!

*The cool thing was that I met the
Native American tribe named the
Zuni tribe. It was very educational.
They gave me food and water. It was
pretty fun.*
