

# Sieur La Salle

By Brynn A.

*I was born in Rouen, France  
on September 1<sup>st</sup>, 1643. I got  
into exploring and explored  
many places. I explored many  
lakes, rivers, and some sand.*

*There are many lakes I explored- Lake Michigan, Lake Huron, Lake Erie, and Lake Ontario. I also sailed the Mississippi River and the Gulf of Mexico. I got a little wet and fishy!!!*

*I found A LOT of land! I once found land and named it Louisiana. And don't ask me why- I don't know! I also found land named Texas. I was suppose to go to a river, but I sailed past it by mistake and landed in Texas.*

*I found a lot more sand than you think! I found sand named Canada, Florida, Mexico, Tennessee, Illinois, and Arkansas. I explored those places for A LOT of years!*

*My people and I built a fort called St.  
Louis in 1689. Then some Indians named  
the Karankawa Indians destroyed it!  
They killed a lot of people- but not me! I  
still think the Karankawas are  
VERY rude though!*

*I died in Navasota, Texas on March 19<sup>th</sup>  
1687. It turns out that the people I explored with  
were very rude and shot me. They didn't like me  
anymore! They left my body for the animals to  
eat. I know what your thinking- GROSS!!!  
I always loved exploring and I'm happy I even  
had a chance to!*
