

Pandas

By: Madison Long in Ms. Baldini's 4th grade class

Location / Habitat

- Primarily live high in the mostly in bamboo forests in China.
- The Wolong Panda Reserve in China has about 150 pandas there.

Food

- They eat bamboo about 16 hours a day.
- They eat about 20-40 pounds of bamboo each day.
- Sometimes they eat in the middle of the night!

Bamboo

- Bamboo is a hard plant that grows fast.
- Pandas have to eat a lot of bamboo because it has very little nutrition in it.

Fur and Other Features

- Pandas are born pink, hairless, and blind.
- When they get older their hair starts to grow black and white.
- Their hair is not soft and fuzzy, it is rough and coarse.

Panda Pictures

Fun Facts

- They can't run fast.
- They're great tree climbers and swimmers.
- They like to do somersaults and roll to get places faster.
- They're like playful like puppies.
- They see well at night.
- They have a good sense of smell.

See them in the U.S.A.
